

LAMPIRAN A

CURRICULUM VITAE

PROF. DR. HJ. HAMIDON HJ. BASRI

**DEPARTMENT OF MEDICINE
FACULTY OF MEDICINE AND HEALTH SCIENCES
UNIVERSITY PUTRA MALAYSIA**

Name Prof. Dr. Hj. Hamidon Hj. Basri

Address Department of Medicine
Faculty of Medicine & Health Sciences
Universiti Putra Malaysia
43400 UPM, Serdang
Selangor, Malaysia

Contact No 603-89472607 (office)
603-89472585 (fax)
hamidon@medic.upm.edu.my (e-mail)

Academic Qualifications

- BSc (Med)(UKM) 1991. Universiti Kebangsaan Malaysia
- MD (UKM) 1994. Universiti Kebangsaan Malaysia
- MMed (UKM) 2001. Universiti Kebangsaan Malaysia
- AM (Mal) 2005. Academy of Medicine Malaysia
- MSN Neurology board certification (Viva) 2006

Present Positions

Deputy Dean (Academic)
& Senior Consultant Neurologist/ Professor
Faculty of Medicine and Health Sciences UPM Malaysia

Head. Neurology and Rehabilitation Unit, Department of Medicine, Faculty of Medicine and Health Sciences UPM Malaysia

President, Malaysian Stroke Council 2008-

Vice-President, Malaysian Society of Neurosciences 2006-2008

Hon Secretary, ASEAN/ASNA stroke WG 2006-

Previous Employment

Universiti Kebangsaan Malaysia

RESEARCH ACTIVITIES

RESEARCH TITLE	PLACE	ROLE & SOURCE OF FUND	STATUS
Developing nanosystem efficient in blood-brain-barrier penetration utilizing emulsions loaded with antibiotics (NEBULA)	UPM	RUGS project 05-05-10-1069RU. RM165,000.	On-going
Developing palm-based transdermal nano delivery system for non-steroidal anti-inflammatory drugs (NSAIDS)	UPM	amount approved: RM 750,000 (National Biotechnology Directorate (NBD) fund 2006-2009). Project head for phase 1/II trial	Completed
Study on delays between stroke onset and management in hospitals. Co-Investigator	UKM	Amount of grant: RM100,000. (NIH grant for the 9 th Malaysia Plan)	Completed
Principal Investigator for ROCKET-AF: A Prospective, Randomized, Multicenter trial	UKM		Completed

Rivaroxaban Once Daily Oral Direct Factor Xa. Inhibition Compared with Vitamin K Antagonism. for Prevention of Stroke and Embolism Trial Non-Valvular Atrial Fibrillation			
Investigator for SAINT (Stroke-Acute ischaemic-NXY Treatment). A randomised double blind, placebo controlled, parallel group, multicenter, phase IIb/III study to assess the efficacy and safety of intravenous NXY-059 in acute ischaemic stroke. Project code FF-037-2003	UKM		Completed
Investigator for a randomised double blind, placebo controlled, parallel group, multicenter study to evaluate the safety of activated recombinant factor VII (Novoseven) in acute intracerebral haemorrhage. Project code: D-013-2002	UKM		Completed
Investigator for the REACH (Recurrent Events in Atherothrombotic Diseases) registry. Project code: FF-016-2004	UKM		Completed
Principal investigator and National coordinator for the Asian stroke registry (STROKOP) study	UKM		Completed
Investigator for the National Malay MMSE Validation study	UKM		Completed
Principal investigator "Silent ischaemic infarcts in patients presenting with an acute stroke". Project code: FF-147-2004	UKM		Completed
Principal investigator "The predictive role of tissue factor level in acute ischaemic stroke". Project code: FF-098-2003	UKM		Completed
Principal investigator "Subclinical infarcts in elderly hypertensive patients". Project code FF-073-2004	UKM		Completed
Principal investigator "Risk factors for developing sleep-disordered breathing in patients with recent	UKM		Completed

ischaemic stroke". Project code FF-098-2004			
Principal investigator "A prospective comparison of percutaneous endoscopic gastrostomy and nasogastric tube feeding in patients with acute dysphagic stroke". Project code FF-023-2004	UKM		Completed
Investigator "Ultrasound guided botulinum toxin A injection in patients with drooling". Project code: FF-111-2004	UKM		Completed
Principal investigator "The role of swallowing test for the prediction of chest infection in ischaemic stroke patients". Project code: FF-044-2005	UKM		Completed
Investigator "Predictors of successful video-assisted thoracoscopic (VAT) thymectomy for Myasthenia Gravis" Principal investigator "The predictors of carotid stenosis in acute ischaemic stroke patients". Project code: FF-097-2005	UKM		Completed
Investigator "Exposure to N-Hexane and prevalence of peripheral neuropathy among tyre factory workers in PJ, Selangor"	UKM		Completed
Principal investigator "The role of validated Malay MMSE in vascular dementia after an acute ischaemic stroke"			
Investigator "A randomised double-blind, placebo-controlled trial of intramuscular injection of botulinum toxin type-A in the treatment of upper limb spasticity after a stroke". Project code: FF-183-2006	UKM		Completed
Principal investigator "Comparison between BOTOX and Dysport injections for patients with hemifacial spasm". Project code: FF 193-2006	UKM		Completed
Principal investigator "Post-stroke pneumonia as a predictor to mortality in Hospital Melaka"	UKM		Completed
Principal investigator	UKM		Completed

“Peripheral arterial disease in patients with underlying ischaemic stroke” Project code FF 001-2008			
Principal investigator “ Risk factors of developing post-stroke spasticity in stroke patients” Project code: FF 019-2008	UKM		Completed
Head of the Kuala Lumpur Regional Integrated Stroke Intervention System (KRISIS) Research group	UKM		Completed
