RESEARCH & CONSULTANCY

Completed Research:

1. Impulsive-compulsive behaviors are common in Asian Parkinson's disease patients: assessment using the QUIP.
2. Knowledge of Parkinson's Disease in a Multi-ethnic Urban Asian Setting.
3. Pure spinal multiple sclerosis: A possible novel entity within the multiple sclerosis disease spectrum.
4. Therapeutic Plasma Exchange in Neuromyelitis Optica Spectrum Disorders and Related Disorders in Resource-Limited Settings: Outcomes in a Multi-ethnic Single-Centre Population.

Ongoing Research:

1. Sequential Intermittent Therapeutic Plasma Exchange: A Possible Induction And Maintenance Therapy In The Management Of Adult Patients With Neuromyelitis Optica Spectrum Disorder.
National Medical Research Register ID : NMRR-18-465-40235
Role : Common first author
2. Neurologists versus Non-neurologists Thrombolysis (NNT) Stroke Study: Emergency Intravenous Thrombolytic Therapy for Adult Patients with Hyperacute Ischaemic Stroke in Malaysian Primary Stroke Centres versus Acute Stroke Ready Hospitals: Comparison of Service Efficiency and Clinical Outcomes.
National Medical Research Register ID : NMRR-19-3731-52272
Role : Principal & Coordinating Investigator
3. Serum 25-hydroxyvitamin D Insufficiency and Deficiency in a Multi-ethnic Population with Multiple Sclerosis and Neuromyelitis Optica Spectrum Disorders: the Prevalence, Inter-ethnic Differences, and Comparison with Global Data.
National Medical Research Register ID : NMRR-17-342-34039
Role : Common first author
4. Call To Action: SARS-CoV-2 and Cerebrovascular Disorders (CASCADE) in Malaysia.
National Medical Research Register ID : pending
Role : Principal & Coordinating Investigator

Output and Outcomes of Research:

1. Publications in international peer-reviewed journals for all completed research.
2. Ongoing research studies – aiming for publications in international peer-reviewed journals and contribution to policy or practice guidelines.
